Intex Bangladesh 2026 to showcase global textile sourcing solutions in Dhaka

Dr Siddhartha Rajagopal, executive director of TEXPROCIL

Mrs Arti Bhagat, Executive Director of Worldex India

Intex Bangladesh 2026, the Bangladesh edition of the Intex South Asia textile sourcing series, is set to return to Dhaka with wider international participation and a stronger focus on sustainable and innovative sourcing solutions. The exhibition will be held on 18-19-20 June 2026, at the International Convention City Bashundhara (ICCB). The Intex South Asia series has completed 17 editions across Bangladesh, Sri Lanka, and India over the past 11 years.

The event aims to connect global textile suppliers with Bangladesh's apparel and textile manufacturers, supporting the country's growing role in global apparel production. This year's edition is expected to attract exhibitors and industry stakeholders from countries including India, China, Thailand, Hong Kong, Taiwan, Uzbekistan, the United Kingdom, Germany, South Korea, Indonesia, and Pakistan.

A major highlight of the exhibition will be the participation of more than 100 Indian companies, supported by leading textile export promotion councils such as The Cotton Textiles Export Promotion Council (TEXPROCIL), Powerloom Development & Export Promotion Council (PDEXCIL), Manmade & Technical Textiles Export Promotion Council (MATEXIL), and Federation of Indian Export Organisations (FIEO). The exhibitors will showcase fibres, yarns, fabrics, and value-added textile products.

The event will also introduce 'InDyChem,' a dedicated pavilion for dyes, chemicals, and finishing solutions, organised in collaboration with the Basic Chemicals, Cosmetics & Dyes Export Promotion Council (CHEMEXCIL). The pavilion will focus on sustainable and high-performance chemical innovations to improve efficiency and support responsible manufacturing practices.

Dr Siddhartha Rajagopal, executive director of TEXPROCIL, said, "The Intex South Asia Show, Dhaka, organized by Worldex India, marks another important milestone in regional textile collaboration. TEXPROCIL has enjoyed a long-standing association with Worldex India for over a decade, consistently leading large delegations at Intex exhibitions across Bangladesh and Sri Lanka, with strong support from their team."

“Bangladesh continues to stand at the forefront of global apparel manufacturing, and Intex has been proud to contribute to this growth journey by enabling meaningful sourcing connections and industry collaboration,” shared Mrs Arti Bhagat, Executive Director of Worldex India.

Besides the exhibition, the three-day event will feature business-to-business matchmaking sessions, interactive business forums, and participation from overseas delegations to encourage networking and commercial partnerships. The venue will be divided into four halls featuring international textile pavilions, India’s textile council pavilions, the China pavilion, and premium fibres and yarns.

Intex Bangladesh 2026 is being supported by several industry associations and business chambers, including the Bangladesh Knitwear Manufacturers and Exporters Association (BKMEA), Bangladesh-German Chamber of Commerce & Industry (BGCCI), U.S.-Bangladesh Chamber of Commerce & Industry (USBCCI), Confederation of Indian Textile Industry (CITI), and Tirupur Exporters' Association (TEA), among others.
