

SHIMA SEIKI to Exhibit at SIMATEX 2024

Leading flat knitting technologist SHIMA SEIKI MFG., LTD. of Wakayama, Japan, together with its Argentinian representative TEMCO ARGENTINA S.A., will participate in the SIMATEX exhibition in Buenos Aires, Argentina this month.

SHIMA SEIKI will exhibit a wide range of products, including proposals in seam-free WHOLEGARMENT® knitting technology as an alternative to labor-intensive manufacturing in the South American market. Three MACH2®VS machines, capable of knitting WHOLEGARMENT® knitwear using every other needle, will be shown in 12, 16 and 18 gauge. N.SVR®122, shown in 5 gauge, is the industry benchmark for shaped knitting, featuring such innovations as the R2CARRIAGE®, WideGauge® knitting, spring-type moveable sinkers, DSCS® Digital Stitch Control System, stitch presser, yarn gripper and cutter, and takedown comb. N.SSR®112 offers industry-leading technology in an economical yet reliable package made in Japan.

Demonstrations will be performed on SHIMA SEIKI's SDS®-ONE APEX4 design system. SDS®-ONE APEX4 provides comprehensive support throughout the supply chain, integrating production into one smooth and efficient workflow from yarn development, product planning and design, to machine programming, production and even sales promotion. Especially effective is the way SDS®-ONE APEX4 improves on the product planning and design evaluation process by replacing physical samples with digital prototypes based on photo-realistic simulations. These virtual samples realize significant savings in time, cost and material, contributing to sustainable manufacturing.

Exhibition Details

Exhibition: SIMATEX 2024
Date: Tuesday, 21st - Thursday, 23rd May 2024
Hours: 12:00 Noon - 8:00PM
Location: La Rural Trade Center, Buenos Aires
Av. Sarmiento 2704, C1425 Cdad.
Autónoma de Buenos Aires, Argentina
Tel: +54-11-4808-8300
Organizer: Messe Frankfurt Argentina, Mundo Textil Magazine
Booth No.: 1H-50

Exhibited Technology

| | |
|-----------------|------------------------------------|
| MACH2®VS183 12G | WHOLEGARMENT® knitting machine |
| MACH2®VS183 16G | WHOLEGARMENT® knitting machine |
| MACH2®VS183 18G | WHOLEGARMENT® knitting machine |
| N.SVR®122 V 05G | Computerized flat knitting machine |
| N.SSR®112 V 12G | Computerized flat knitting machine |
| SDS®-ONE APEX4 | 3D design system |
