

EFI Reggiani Showcases Next-Generation Digital Textile Printing Solutions at ITMA ASIA + CITME 2025

Singapore, October 29th, 2025 – Textile companies can take full advantage of expanded print opportunities with the ground-breaking new EFI™ [Reggiani](#) textile solutions presented at **ITMA ASIA + CITME 2025**, taking place **October 28-31** at the **Singapore Expo, Hall 6 – Booth C113**.

ITMA Asia will be the occasion to announce the enhanced version of [EFI™ Reggiani HYPER](#) series. Building on the proven success of its predecessor, the upgraded HYPER delivers higher printing speeds, enhanced connectivity, and outstanding image quality, pushing the limits of productivity and precision even further. Equipped with 72 state-of-the-art printheads with recirculation up to the nozzle plate, HYPER achieves the fastest throughput in the industry while maintaining exceptional print quality.

The introduction of the High-Quality Booster feature improves detail rendering and printing uniformity, leveraging the combination of EFI Reggiani's genuine water-based inks and Inèdit neoStampa RIP software.

In addition, the refined connection architecture simplifies system integration and enables easier diagnostics and maintenance. The enhanced HYPER provides unparalleled performance and color fidelity — the perfect solution for textile manufacturers who demand both speed and perfection.

During the show, EFI Reggiani representatives are also discussing the latest digital innovations with attendees, including:

- The [EFI™ Reggiani ecoTERRA pigment solution](#), the game-changing, all-in-one solution for water-based pigment printing that requires no ancillary equipment for pre- and post-treatment, all this is combined with the most comprehensive pigment lineup in the industry.
- The [EFI™ Reggiani EXTRA](#), the digital printer that brings more colours at faster speeds. Designed for textile producers who want more of everything that matters, the EFI Reggiani EXTRA combines vivid color reproduction, industrial-level productivity, and sustainable operation in one versatile platform, offering up to 12 different colours in a row. From fashion and apparel to home textiles and sportswear, the EXTRA delivers EXTRA colours for lifelike, vibrant results, EXTRA speed for rapid turnarounds, EXTRAordinary quality that ensures every detail stands out.
- The [EFI™ Reggiani BOLT XS](#) printer, the ultimate digital alternative to rotary printing. Engineered for high-volume, on-demand production, the BOLT XS combines unmatched speed — reaching operational levels up to 100 m/min

— with continuous uptime, superior print uniformity, an ultra-compact footprint, and a low total cost of ownership, making it the ideal solution for businesses transitioning from mass production to flexible, on-demand manufacturing.

- One of the industry's broadest line-ups of high-end, superior-quality [textile inks](#), including **EFI™ Reggiani AQUA** and **EFI Reggiani DIAMOND** reactive, **IRIS** dye-sublimation, **ARIA** direct disperse, **FUOCO** acid, **GEA** and **TERRA** pigment inks.
- The latest enhancements to [Inèdit product range](#), that streamlines production with highly advanced workflow solutions, including textile profiling, calibration, design integration, and more.

Visitors to EFI Reggiani's booth will experience interactive touchscreen kiosks to explore the company's full textile portfolio, and view real-life application samples in a dedicated gallery, offering inspiration and insight into new ways to grow businesses and attract new customers.

"ITMA Asia is one of the largest textile printing showcases in the world and the perfect stage to present our market-leading EFI™ Reggiani portfolio – from super-fast digital textile printing equipment to end-to-end workflow solutions and superior-quality aqueous inks and more," said **Vincenzo Marino**, VP, General Manager Textile, EFI. "It is also the ideal opportunity to reaffirm our commitment to high-quality, high-productivity printing solutions through our enhanced HYPER and EXTRA printers. No matter where customers are in their business development and digital journey, EFI Reggiani provides the technology to help them reach the next level of productivity and profitability."
