

SHIMA SEIKI to Exhibit at Expotextil Peru 2023

Leading flat knitting solutions provider SHIMA SEIKI MFG., LTD. of Wakayama, Japan, in cooperation with its Peruvian sales representative STT PERU IMPORT SRL, will exhibit at the upcoming Expotextil Peru 2023 show in Lima, Peru.

It is said that exports from the Peruvian textile industry is increasing and that the market is ripe for implementation of new technology. To that end, SHIMA SEIKI will exhibit its WHOLEGARMENT® knitting technology that can knit an entire garment without the need for post-process sewing, through its MACH2®VS WHOLEGARMENT® knitting machine. The flexible and versatile MACH2®VS is capable of knitting a range of production styles, perfect for knitting companies looking for ways to distinguish their services in a competitive market. As a conventional shaping machine, it is capable of all-needle knitting in its available range of 8 to 18 gauge, while WHOLEGARMENT® knitwear can be produced in half-gauge fabrics using every other needle. The range of usable yarn and material has increased as well, thanks to i-DSCS+DTC® as standard equipment. The R2CARRIAGE® system that yields quicker carriage returns for greater efficiency, now features a lighter carriage for even higher productivity. MACH2®VS is even capable of gaugeless knitting whereby a number of different gauges can be knit into a single garment. MACH2®VS will be on display at Expotextil in 8 gauge.

The potential of SHIMA SEIKI knitting machines are maximized in combination with the SDS®-ONE APEX4 3D design system. At the core of the company's "Total Fashion System" concept, SDS®-ONE APEX4 provides comprehensive support throughout the apparel supply chain, integrating production into one smooth and efficient workflow from yarn development, product planning and design to production and even sales promotion. Especially effective is the capability to improve on the design and evaluation process with virtual sampling. Ultra-realistic simulation capability allows the use of virtual samples for evaluating design variations without producing actual samples for each variation, thereby minimizing the time, cost and resources normally required with sample-making, supporting smart, speedy and sustainable apparel production.

Exhibit Details

Name: Expotextil Peru 2023
Date: Thursday, 26th - Sunday, 29th October 2023
Hours: 12:00 Noon - 8:00PM
Location: Jockey Exhibition Center
Avenida Javier Prado Este 4200 Lima, Peru
Tel: +51 (1) 242-9464
Organizer: Plastic Concept S.A.C.
Booth: M12 (STT PERU IMPORT Booth)

Exhibited Technology

MACH2®VS183 8G WHOLEGARMENT® knitting machine
SDS®-ONE APEX4 3D design system
