

FOR IMMEDIATE RELEASE

SHIMA SEIKI to Exhibit at GMMSA Expo India

Leading Japanese computerized flat knitting technologist SHIMA SEIKI MFG., LTD. of Wakayama, Japan, together with its Indian sales representative Universal MEP Projects & Engineering Services, Ltd., will participate in the upcoming Garments Machinery Manufacturers & Suppliers Association (GMMSA) Expo India 2025 exhibition to be held in Ludhiana, India next month.

N.SVR®183

SHIMA SEIKI will be exhibiting its WHOLEGARMENT® knitting technology whereby an item can be produced in one entire piece on the machine without linking or sewing. Its N.SVR®183 WHOLEGARMENT® knitting machine produces WHOLEGARMENT® knitwear using every other needle in fine gauge. N.SVR®183 is equipped with the R2CARRIAGE® system and a compact, lightweight carriage for high productivity. Shown in 21G at the GMMSA Expo, N.SVR®183 is an ideal machine for flexible, entry-level WHOLEGARMENT® production, with the versatility to respond to fluctuating market demand.

N.SSR®112

Meanwhile the N.SSR®112 is a computerized flat knitting machine that offers leading technology in an economical yet reliable package. Featuring industry-leading innovations such as the R2CARRIAGE® that yields quicker carriage returns for greater efficiency, spring-type moveable sinker, DSCS® Digital Stitch Control System, stitch presser and takedown comb, Made-in-Japan quality, reliability and productivity, as well as user-friendliness and cost-performance combine to satisfy the high expectations of the world's, and India's, fashion industry. N.SSR®112 is even capable of WideGauge® knitting whereby a number of different gauges can be knit into a single garment.

SDS®-ONE APEX4 and APEXFiz®

SDS®-ONE APEX4 3D design system and APEXFiz® subscription-based design software support the creative side of fashion from planning and design to colorway evaluation, realistic fabric simulation and 3D virtual sampling. Virtual samples are a digitized version of sample making that are accurate enough to be used effectively as prototypes, replacing physical sampling and consequently reducing time, cost and material that otherwise go to waste. When a design is approved for production, knitting data which is automatically generated can be converted easily to machine data, allowing smooth communication for digitally bridging the gap between design studio and factory. SDS®-ONE APEX4 and APEXFiz® help to realize sustainability while digitally transforming the fashion supply chain.

Exhibition Details

Name: GMMSA Expo India 2025
Date: Friday, 7th ~ Monday, 10th February 2025
Hours: 10:00AM - 6:00PM
Location: Dana Mandi Exhibition Centre
Dana Mandi, Bahadur Ke Road, Near Jalandhar Bye Pass,
Ludhiana, Punjab, India
Organizer: Garments Machinery Manufacturers & Suppliers Association
Booth No.: Hall C, Booth C-12

Exhibited Technology

N.SVR®183 V21G	WHOLEGARMENT® knitting machine
N.SSR®112 7G	Computerized flat knitting machine
SDS®-ONE APEX4	3D Design System
APEXFiz®	Design software subscription service

FOR IMMEDIATE RELEASE

About SHIMA SEIKI

Company Name: SHIMA SEIKI MFG., LTD.

Established: 1962

President: Mitsuhiro Shima

No. of Employees: 1,346

Headquarters: Address: 85 Sakata Wakayama 641-8511 JAPAN
Telephone: +81-(0)73-474-8210 (Joint Sales Division)
Facsimile: +81-(0)73-474-8270 (Joint Sales Division)
URL: <http://www.shimaseiki.com>

Core Business: Development, manufacture, sales and service of WHOLEGARMENT® knitting machines, computerized flat knitting machines, glove and sock knitting machines, computer graphic apparel design systems, apparel CAD systems, computerized fabric cutting machines (CAM), textile printing machines and other related peripherals.

Company Profile: SHIMA SEIKI MFG., LTD. of Wakayama, Japan is a leading manufacturer in the computerized flatbed knitting machine industry. With complete systems integration from planning, production to sales promotion and retail sales, SHIMA SEIKI has been dedicating its products and services to the knitting industry worldwide through the latest in computerized knitting technology.

SHIMA SEIKI is also the pioneer in complete garment manufacturing technology—called WHOLEGARMENT®—wherein an entire knitted garment is produced on the knitting machine without the need for linking or sewing afterward. Since its commercial introduction in 1995, SHIMA SEIKI has been the undisputed leader in WHOLEGARMENT® knitting technology with 30 years of field experience and know-how, not to mention over 2,900 related patents and patents pending worldwide.

Meanwhile SHIMA SEIKI's SDS®-ONE APEX series 3D design system and APEXFiz® design software feature ultra-realistic knit simulation for creating virtual samples. Virtual samples minimize time, cost and material associated with the sample-making phase. Virtual samples can also be used to gauge consumer response to items before going to market, effectively realizing production based on demand forecasting. Inventory can therefore be optimized to minimize leftover stock, realizing smart, speedy and sustainable production.
